

Architecting Rwanda's Digital and Financial Future

I Link Rwanda Limited | Corporate Profile

We Architect Market-Ready Solutions with a 361-Degree Holistic Approach.

I Link Rwanda is a strategic local entity with a Pan-African vision, established to empower Rwanda's financial sector by fusing technology, strategy, and innovation.

Our '361-degree' advantage is a comprehensive model that intentionally goes one degree beyond the conventional to ensure solutions are not merely implemented, but fully embedded for market adoption and sustained loyalty. By combining deep local insight with global best practices, we serve as a catalyst for digital and financial evolution.

Our Foundational Strength is a Synergistic Partnership of Visionary Leaders

Regulatory Authority and Financial Innovation Expert

- Provides deep institutional knowledge in financial policy, curriculum development, and professional certification frameworks.
- Over 18 years of experience as a trusted advisor to governments and international organizations like the UNDP and ILO.
- Authored national strategies for inclusive insurance and financial sector development.
- Certified more than 500 professionals in finance and climate resilience through bespoke Training of Trainers (ToT) programs.
- Author of over 10 books, including a winner of the prestigious AIO Best Book Award.

Visionary Technologist and Government Policies Advocate

- A multi-award-winning leader who drives the company's strategic direction and digital transformation.
- Over 15 years of experience in enterprise sales and e-Government procurement.
- Excels at navigating complex regulatory environments to secure high-value national licenses and forge public-private partnerships.
- Strategic influence extends to influential boards, including the AfCFTA Implementation Committee, shaping policy for cross-border digital trade.

We Engineer Market Leadership Through Three Interconnected Service Pillars.

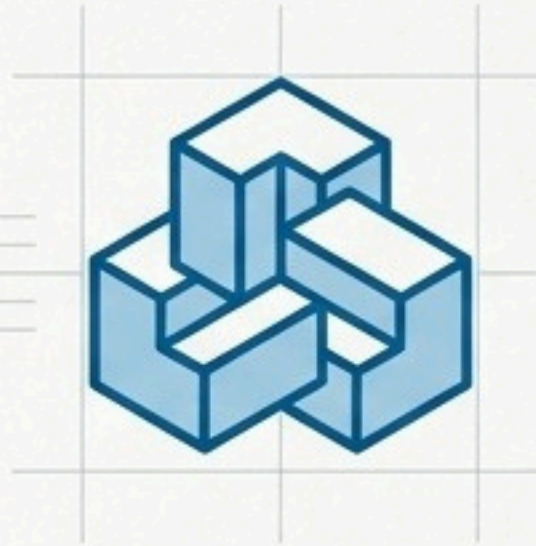

Strategic R&D and Consultancy

We act as a specialized, external R&D unit for our clients, driving innovation through continuous marketing strategy, digital transformation advisory, and end-to-end product incubation.

Executive Training & Capacity Building

We deliver high-impact executive training and transformational programs designed to build elite commercial teams equipped with a modern mindset, toolkit, and strategic approach.

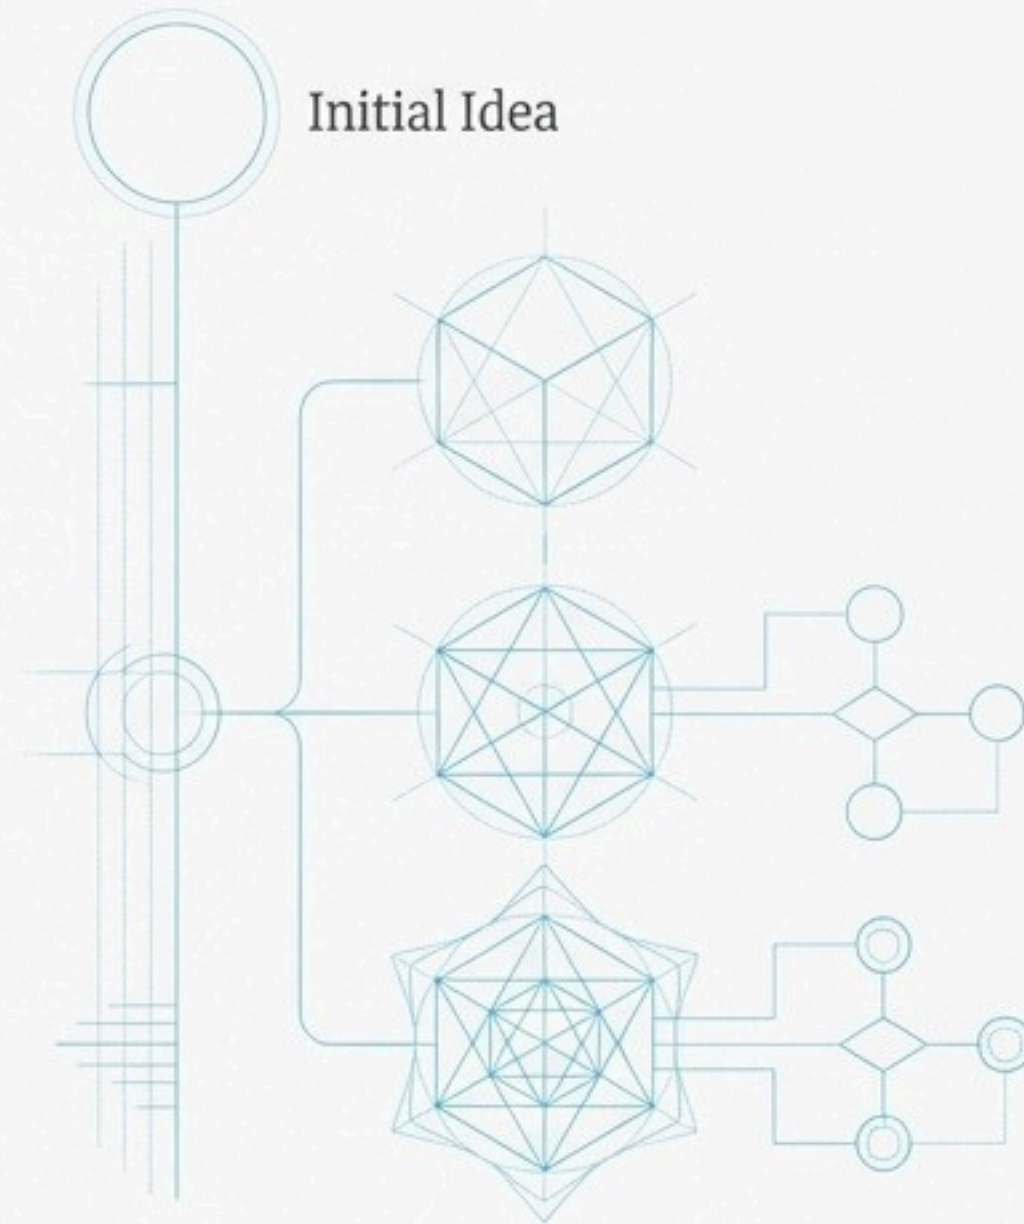

Digital Platform Development & Implementation

We serve as a dedicated technology partner, responsible for the design, development, and management of robust digital ecosystems that bring strategic vision to life at scale.

Our R&D Incubates Market-Defining Financial Products.

Through our retainer-based consultancy model, we embed within a client's strategic planning process to optimize existing portfolios and develop new solutions.

Key Innovative Product Concepts Developed:

- Educare Corporate Packages to enhance employee retention.
- BNPL Credit Life for the growing 'Buy Now, Pay Later' market.
- Group Credit Life (Social Groups) for informal savings groups.
- Fuel Sales Integration for micro-insurance top-ups at petrol stations.
- Climate-Linked Index Insurance for the Rwandan agricultural sector.

We Build Elite Commercial Teams Through a Complete Psychological and Technical Overhaul

The '**Sales Accelerator: 2026**' program, a transformational intensive for the modern African professional.

Core Modules:

Identity Boost: The Architecture of the Closer

Sales as a Personal Relationship: The Trust Economy

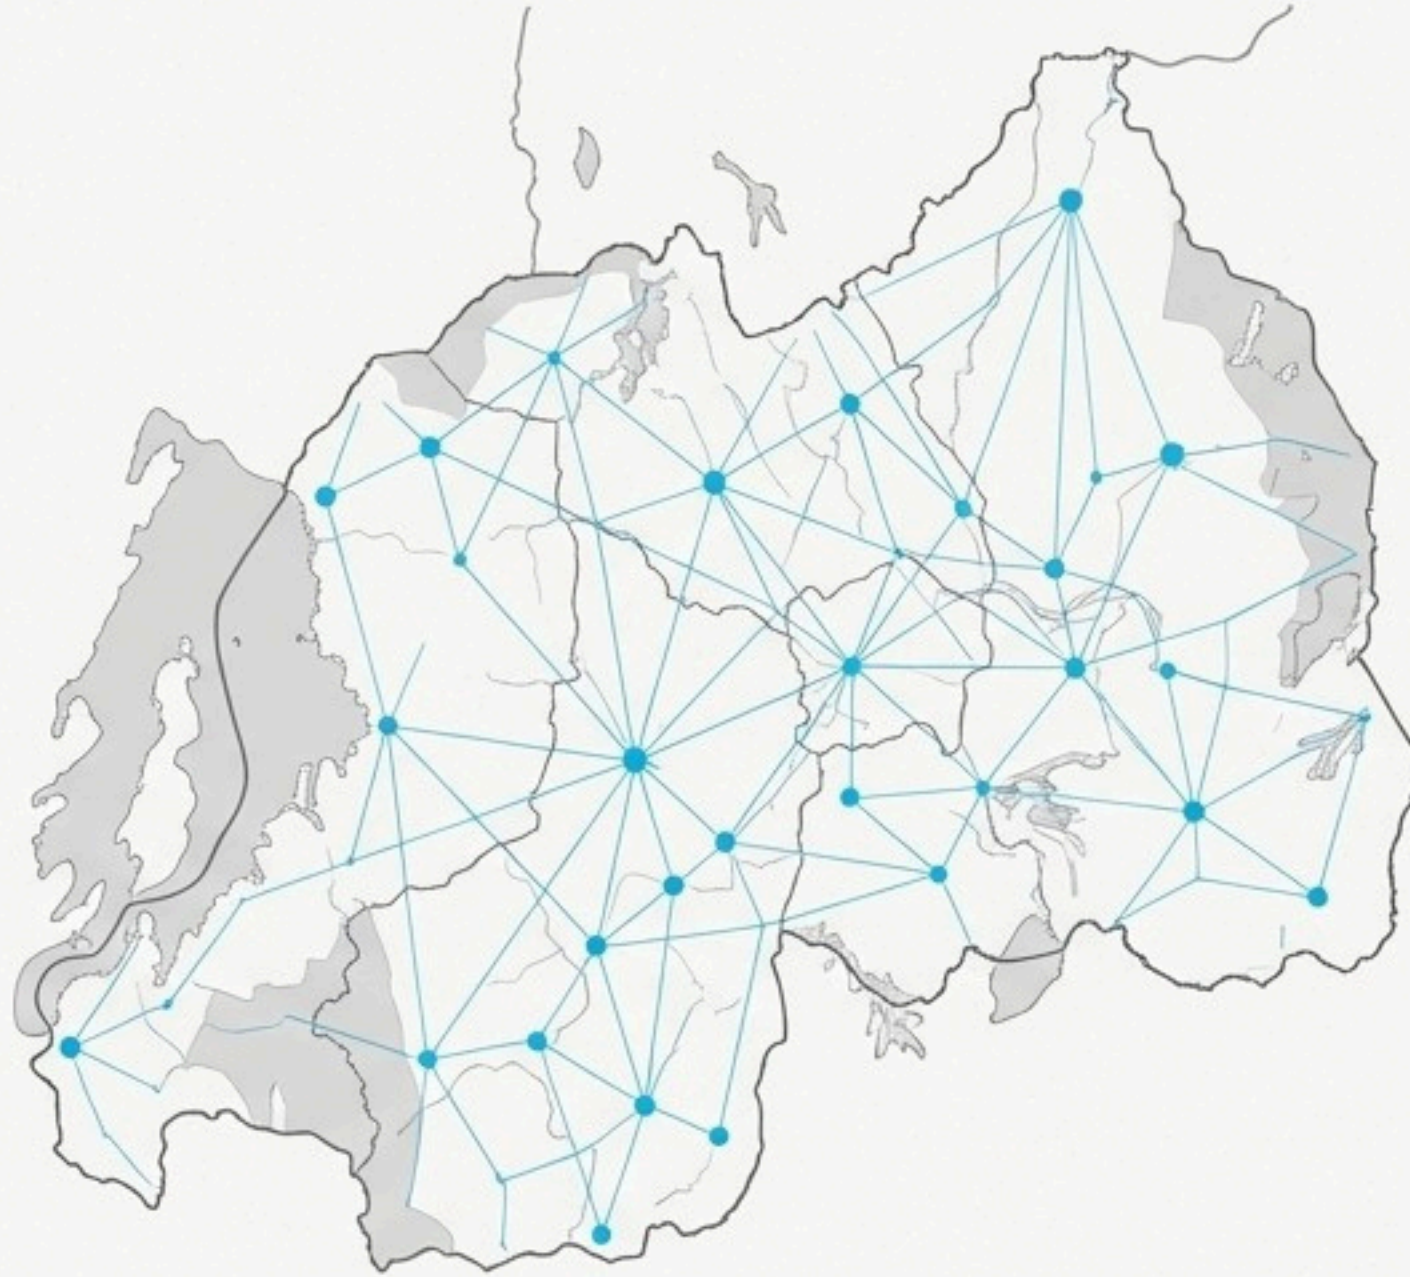

Quantum Physics of Sales: Collapsing the Possibility

The Modern Toolkit: AI, Social Media & Strategic Networking

Evolving: The Learn, Unlearn, Relearn Framework

Our Integrated Model Drives National-Scale Impact: The Financial Inclusion Ambassador (FIA) Networks Program.

A five-year initiative strategically designed to address critical gaps in financial literacy and service distribution across Rwanda, directly supporting the nation's Financial Sector Development Strategy. The program bridges the last-mile gap between financial institutions and communities by creating a nationwide network of trusted local intermediaries.

I Link Rwanda's Role

Serving as both the **Lead Implementing Partner** and the **Technology and Platform Partner**, architecting the core digital infrastructure and driving execution.

Delivering Tangible, Measurable Results for Rwanda

1.8 Million+

Households reached with critical financial services and literacy.

451

Youth employed nationwide as certified Financial Inclusion Ambassadors.

RWF 5 Billion

Mobilized in local savings through SACCOs and Microfinance Institutions.

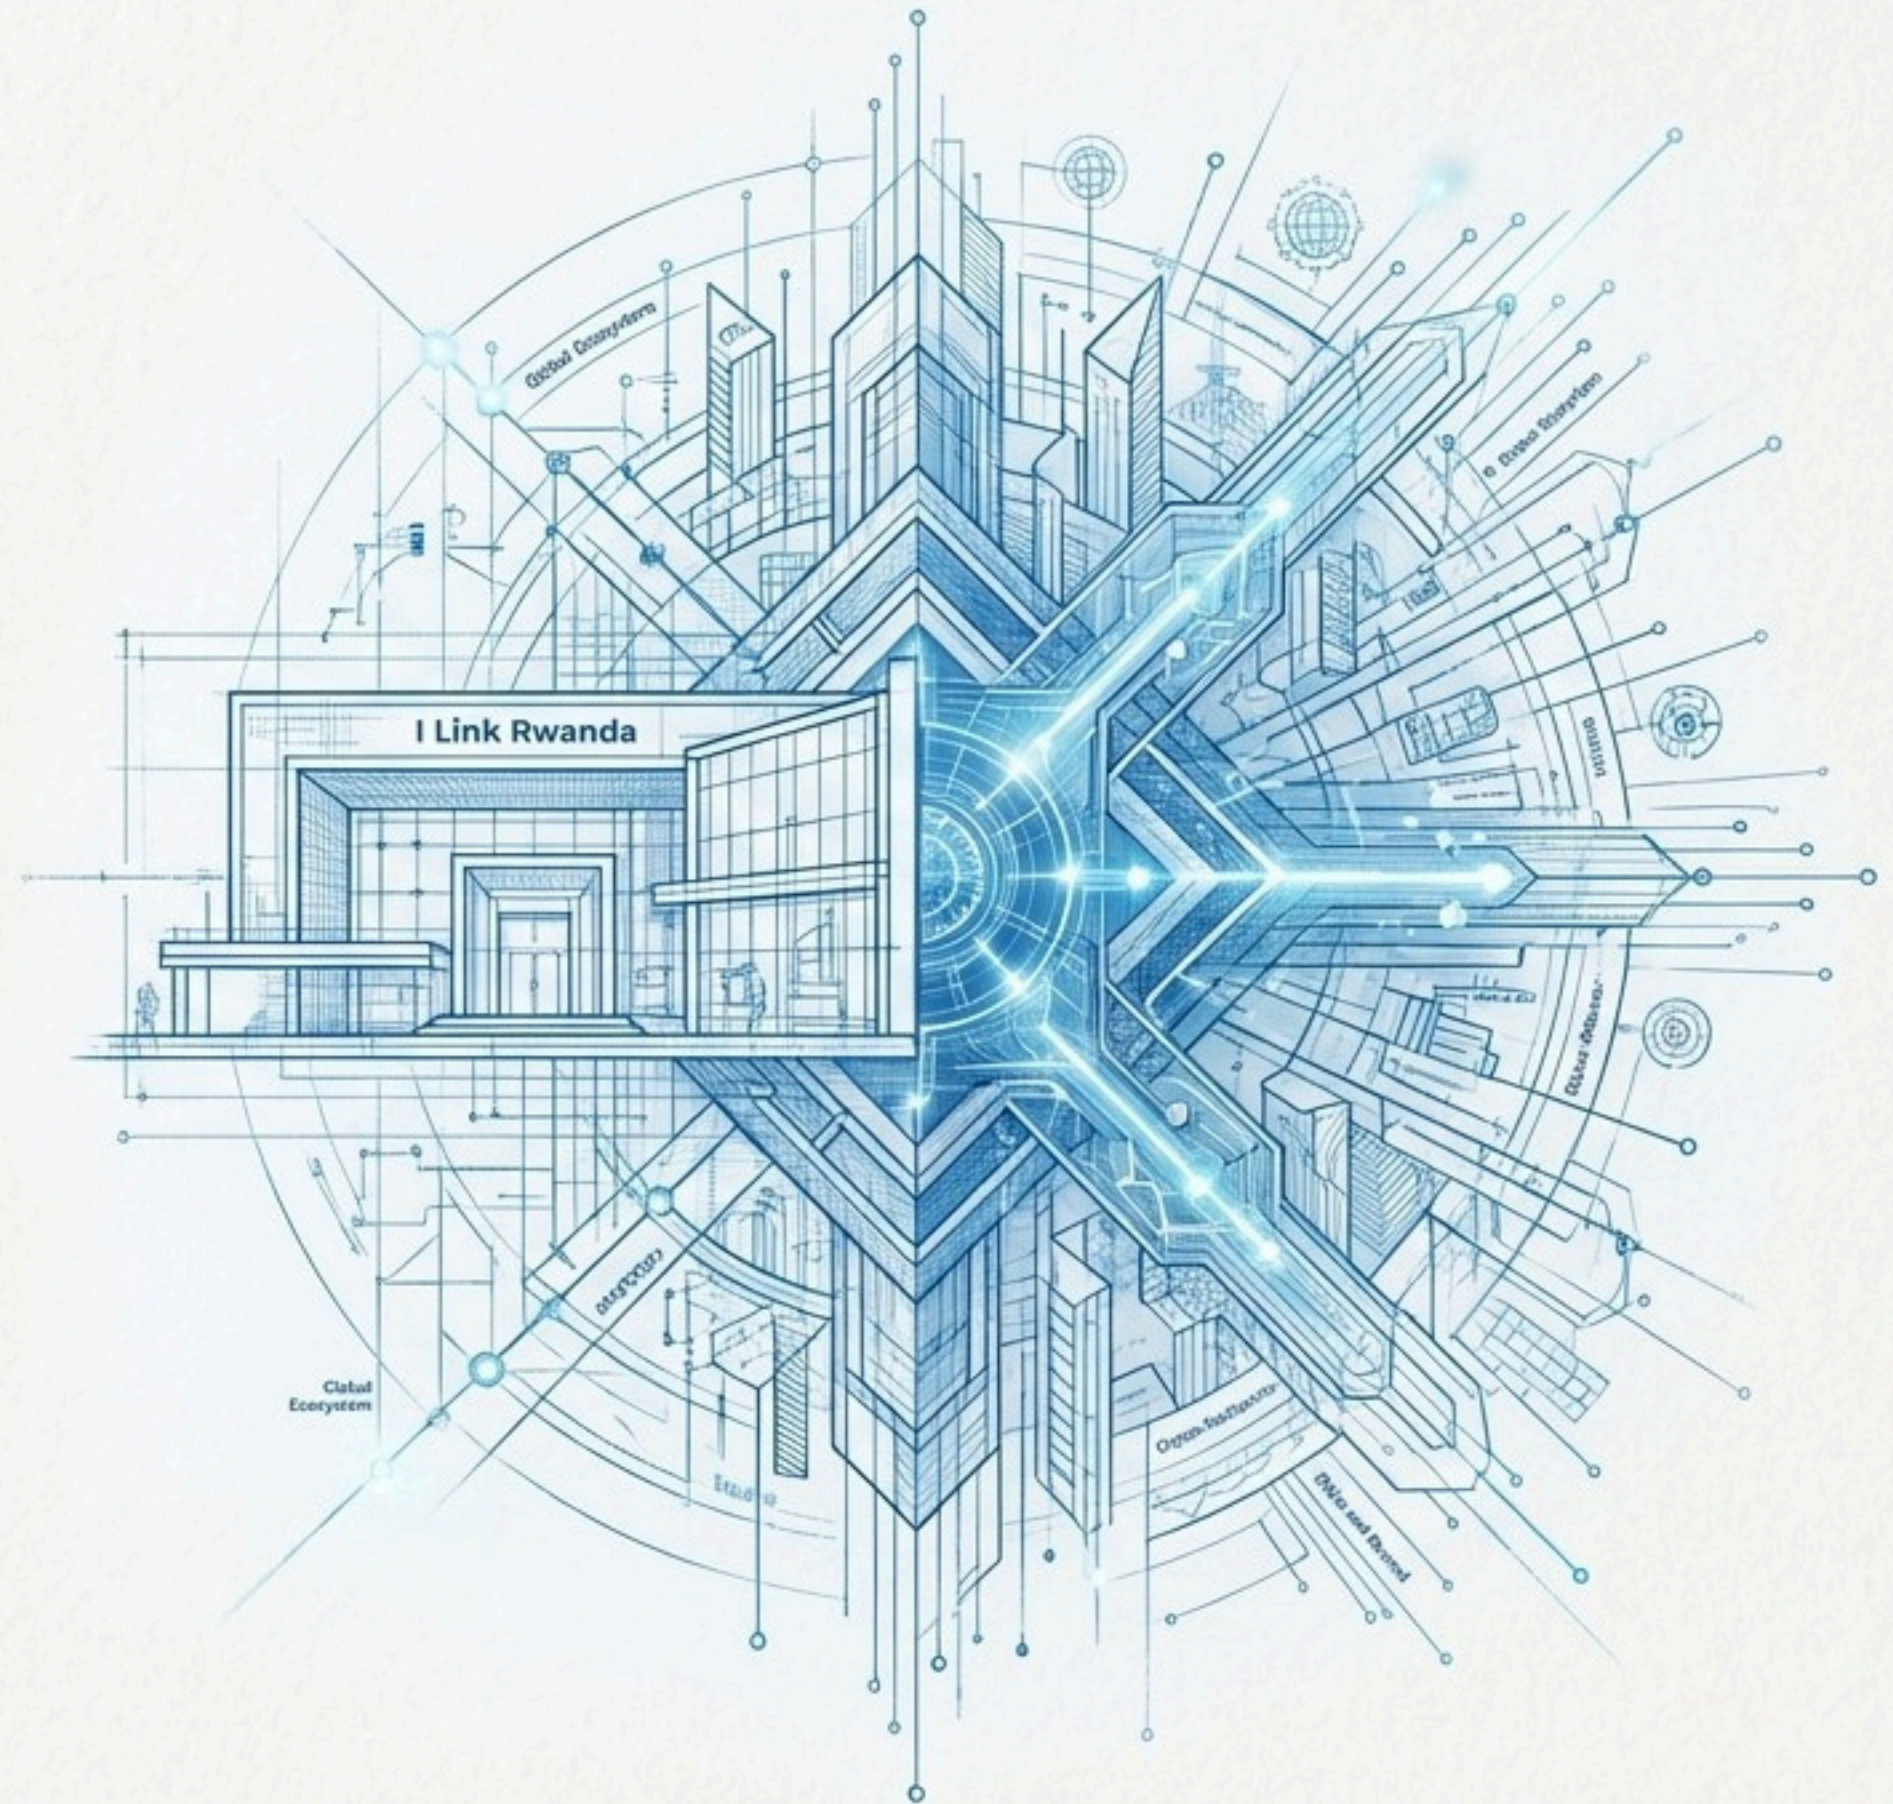

1.87% → 3.5%

Driving Growth in Insurance Penetration, increasing the national rate toward a goal of 3.5%.

I Link Rwanda is the Operational Frontline of a Premier Global Intellectual Property and Asset Management Firm.

I Link Rwanda's capabilities are amplified by its parent entity, **I Link Global Holdings Ltd.**, which serves as the central "Vault" for a diversified ecosystem of high-impact business solutions, proprietary digital platforms, and sector-specific licenses. The group's core model merges MARTECH (Marketing Technology) with cross-sector licenses to drive industrial and financial evolution across "Africa and Beyond."

An Ecosystem of Proprietary Licenses Addressing Key Market Gaps.

The success of the Rwanda FIA project serves as the validated, institutionally-backed pilot model for replicating these solutions in new markets.

Powering Inclusion and Commerce with Proprietary Digital Platforms

Mama Mia's Soko

An integrated Manufacturer-to-Consumer marketplace designed to connect African manufacturers with global consumers and break down traditional barriers to international trade.

Bima Kwik

The BimaLab Africa award-winning Insuretech platform, central to the Rwanda FIA project and our mission to advance financial inclusion across the continent.

FIA Network Management System

The bespoke digital management platform architected for the FIA program, demonstrating our capability to build and manage the core technology infrastructure for national-scale initiatives.

Our Corporate Strategy is Uniquely Integrated with a Strong Social Mission.

ILink's strategic objectives are transformed into measurable, life-changing outcomes through our dedicated philanthropic arm, **Mama Mia's Foundation**. Operating as an International NGO (INGO), the foundation is a critical component of the group's long-term vision for driving sustainable and inclusive growth.

Driving Sustainable Growth Across Six Core Strategic Objectives.

Foster Inclusion

Close the gap in digital literacy and financial access for underserved individuals and SMEs.

Empower & Connect

Create economic opportunities, entrepreneurship, and market access for women and youth.

Promote Well-being

Improve community health by increasing access to affordable insurance and healthcare.

Drive Sustainability

Champion climate-resilient practices, clean energy, and explore carbon/energy credits.

Resolve Conflicts & Uphold Rights

Implement conflict resolution for legal/land disputes and advocate for women's rights.

Build Capacity

Provide targeted training to strengthen leadership, critical thinking, and soft skills.

Partner with I Link Rwanda to Build the Future of Finance and Digital Commerce.

I Link Rwanda is uniquely positioned to bridge vision with market reality. Our '361-degree advantage,' combined with a proven ability to execute national-scale initiatives and the unique fusion of technological prowess and regulatory insight from our leadership, provides a comprehensive engine for growth. We architect solutions that not only meet the demands of today but also define the opportunities of tomorrow.
